February 10, 2009

Dear Retailers,

As you are aware, Congress enacted the Consumer Product Safety Improvement Act of 2008 (CPSIA) on August 18th, 2008, which requires a reduction in the amount of lead and phthalates in products, additional product and advertising labeling, and third-party testing and certification.

At Continuum Games, Inc., safety is extremely important. As part of our ongoing commitment to toy safety, the games we publish have been tested. The tests indicate that our games are compliant with the safety standards established by the CPSIA. We are making COCs for the games we publish available electronically on our web site at [www.continuumgames.com/saftey](http://www.continuumgames.com/saftey). We also are updating our invoices and other materials to reference the web address where the COCs are located.

We are also working with the manufacturers of the games we distribute to gather certificates of compliance (COCs). We are compiling COCs for the games we distribute electronically on our web site at [www.continuumgames.com/saftey](http://www.continuumgames.com/saftey).

Please contact us if you have questions about our compliance with the CPSIA.

Sincerely,

Greg Hughes  
President  
Continuum Games, Inc.
